HUGE Work at Home Success... Why Not Me?!

Sometimes one of the hardest things when trying to stay motivated in your home based business is being around people who are having huge success when you aren't. You might end up asking yourself "Why not me?" and perhaps even doubting yourself and your skills completely.

The first thing to know is that when you're working in any home based businesses it can be one big game of chance. Don't get me wrong... EVERYONE can have success in a home based business... if they keep at it. However, some people, even people who are doing just as much if not less than you could very well be more successful than you at times.

Why? Because a large part of network marketing is a numbers game. One person can call 50 prospects and sign up 5 people and another person can call 50 prospects on the very same day and not sign up any... that's just how it works. It's not fair but it's fact.

But despair not! There is one surefire way to make sure that you have just as much success as everyone else... are you ready for it! Consistency!

I can tell you with 100% certainty that if you are diligent and consistent in ANY home based business you WILL see success. The problem is that a lot of people give up on themselves and their businesses before they get a chance to see that success.

I will bet you that if you took all the highest earners from all the top network marketing companies in the country and found one common thread between them all it would be that they all worked on their business consistently. Day in and day out even when they didn't feel like it, even when people were rude to them on the phone or told them they were crazy, consistency is KEY!

So what else sets those of us who aren't having success apart from those who are? Mindset! There is no doubt about it this is a hard industry to be in. People WILL tell you you're crazy or tell you just to go out and get a "real job" maybe even your closest friends or your own family!

It is your positive mindset that will keep you going even when all the nay-sayers are telling you to give up. Don't ever let anyone tell you that you can't achieve your dreams!

If you keep a positive mindset and work your business with consistency there will be absolutely no difference between you and the most successful people in any business. Never give in and never give up and you WILL find success in a home based business!
